

Empowering young girls through Education and Health

Dear Chief/Dr./Mr./Mrs. _____

May 27th, 2016

St. Maria Goretti Old Girls International (GOGI) is a non-profit 501© (3) organization incorporated in 2007 for the purpose of helping young girls achieve their maximum potential. It is an international organization opened to all ladies who previously attended St. Maria Goretti (located in Benin-City, Nigeria), and reside outside Nigeria. We are committed to helping the young girls who currently attend the school by ensuring adequate education and improving their health. This goal can be achieved through individuals who strongly believe that service to mankind is one of our main purposes on this earth. Please join us in this rewarding journey as we improve the lives of others through service and support.

Since 2007, with the help of sponsors, membership dues, donations, etc. have been involved in the following on-going commitments:

- Award yearly scholarships to students
- Provide books for references and learning for age group 12-17 years
- Provide computers to enhance learning
- Provide more than 100 black erase markers

Our goal is to improve the status of the school to its previous academic standard of learning in a healthy environment. Our recent project is a computer lab for the school because we believe that promoting the use of advance technology among students can enhance their learning. **We graciously ask for your financial support by donating towards the improvement of the computer lab and other projects we have queued up to manage. Thank you for your anticipated support.**

Desiree Tisdol

President of GOGI
